KNOWLEDGE ALLIANCE ENGINEERS FOR EUROPE (E4E)

In partnership with :

1. ENGINEERS EUROPE MONITOR (EEM)

For a continuously updated source of information and inspiration for university-business interaction on engineering professionals

- **An online platform** with a growing data content fed with **surveys** conducted on Students, Graduates, Active Engineers, Employers in **6 pilot countries** (SE, IE, DE, FR, IT, PT)
- A reflection of engineering professionals' inputs focusing on **4 aspects** :
1. Personal background, 2. Initial and continuing education, 3. Career development and mobility, 4. Labor conditions
- **Visibility of the results** : EEM News Flash (bi-annual), EEM Report (annual), growing media presence, short videos

2. ENGINEERS EUROPE EDUCATION REFORM ACCELERATOR (ERA)

To help accelerate reform in engineering education and bridge the gap between engineering education and practice

- Launching of the **Engineers Europe Skills Compass**
- Fast **feedback loops** between education and practice

➔ To provide training institutes with the latest feedbacks from professional practice

➔ To help engineering education and practice reinforce and accelerate each other

➔ To help learners acquire and renew relevant **future-oriented competences** to face the challenges of digitalization and artificial intelligence

3. ENGINEERS EUROPE CAREER DEVELOPMENT SERVICES (CDS)

To ensure that engineering professions can put their competences at the service of society and innovation

- A series of **career development services** in the engineering professions in industry and public service :

1. **Engineers Europe Badges** : to acknowledge the candidates' learning and extras by engineering professionals
2. **Engineers Europe Expert Portal** : to match supply and demand in the engineering field and stimulate cross-fertilization for talent and expertise

➔ To increase enthusiasm for **lifelong learning** and open new career perspectives for engineering professionals

E4E KNOWLEDGE ALLIANCE

A unique position to cover both significant actors in academia, employer's associations and associations of engineering professionals

A constituency of millions of individuals active in the engineering professions

A wealth of experience and a huge potential for cross-fertilization largely untapped so far

Launching date : 7 June 2019, Brussels

A transformation strategy for FEANI

- ➔ Ensure **a single voice of engineers** in Europe, being the principal contact for the EU and therefore obtain institutional weight
- ➔ Highlight and **promote the role of the profession** in the society and for economic growth
- ➔ Develop **policy/position papers** and involve industry/employers
- ➔ Seek a closer **cooperation with industry and employers**
- ➔ Start with an informal partnership : the duration and administration of such an **initial phase of partnership should be determined** and then **include other organisations in a next step**
